

Filey CE Nursery and Infants Academy

DT at our school.

"Every Child is a Designer and Maker"

School Lead: Laura Haldenby

Our Weekly Teaching Offer

Our curriculum is multi-sensory, inclusive and well sequenced, designed to meet Filey's needs.

- **EYFS pupils** - receive DT lessons with lots of opportunities to explore a range of DT tools and techniques. In EYFS DT is child-initiated and based around current interest within the class. Pupils have the opportunity to be creative and use their imaginations both in the classroom continuous provision and on a larger scale in the outdoor areas.
- **Year 1 pupils** - receive weekly DT lessons in alternating half terms. This follows the school long term planning and bespoke design and technology progression document which is rooted in the National Curriculum for Design and Technology for KS1. They also use the well-resourced workshop area in the classroom independently.
- **Year 2 pupils** - receive weekly DT lessons in alternating half terms. This follows the school long term planning and bespoke art and design progression document which is rooted in the National Curriculum for Design and Technology for KS1.
- **In ALL classes**- DT consists of pupils being taught the knowledge of different DT tools and techniques and being given the opportunity to use these tools and techniques when designing and making.

Additional Opportunities for DT throughout School Life

All classes in school contribute to designing and making Nativity boxes which are delivered to the local community at Christmas time.

Class Provision includes:

- A range of small tools and resources including scissors, hole punch, lolly sticks, art straws, card, glue, tape, clay.

Design and Technology in our school is purposeful and engaging. Children create products for themselves and others to use and enjoy, following a process of evaluating existing products, designing their own product, making and then evaluating their finished product.
