

# New Scarborough Digital Hub Digital Courses

William Street Business Centre, 7A Lower Clark Street, Scarborough, YO12 7PP

Join us for a friendly three session course from our brand-new Scarborough Digital Hub!

Build your digital confidence and help you make the most of your tablet.

#### **Session 1 – Getting Online & Staying Safe**

Start your digital journey with confidence. Learn how to get connected, browse the internet safely, and protect your personal information while exploring the online world.

#### **Session 2 – Setting Up Your Tablet**

Unbox, set up, and personalise your new tablet with our guided support. We'll help you install essential apps and get everything working just the way you like it—then you'll take the tablet home to practise.

#### **Session 3 – Settings, Camera & Troubleshooting**

Share your experiences, ask questions, and explore more useful features. We'll cover device settings, how to use the camera, and simple troubleshooting so you feel confident using your tablet independently.

Sign up before 31 March and attend all three sessions to keep your tablet at the end of the course.
